HandSafe Hand Sanitizer WHO Recommended Hand Rub Formulation

BioSafe's HandSafe Hand Sanitizer is manufactured using the WHO recommended formulation for a Hand Rub Sanitizer that's been tested to minimize viral transmission of viruses and maximize virus inactivation. This testing includes the inactivation of SARS-CoV-2; the virus that causes COVID-19.

The WHO/BioSafe formulation, consisting of 80% Ethanol, 1.45% Glycerol, .125% Hydrogen Peroxide, and 18.42% Purified Water, inactivates 99.999% of viruses and bacteria with a 30 second exposure time.
